LAUNCH OF 6-WEEK ENTREPRENEURSHIP SKILL DEVELOPMENT COURSE

Repairing Household Electric Appliances & Electronic Gadgets

December 26, 2023 , Budgam : In a significant stride towards promoting entrepreneurship and skill development, a formal inauguration session for a 6-week short-term course on Entrepreneurship Skill Development was conducted at the Seminar Hall of Government Polytechnic College (GPC) Budgam on December 26, 2023. The course, conducted in collaboration with MSME, Government of India, focuses on the repairing of household electric appliances and electronic gadgets.

The event was inaugurated by Mr. Saheel Yaqoob Allaqband, IEDS Asst Director, Branch- MSME DFO Srinagar JKUT. The esteemed Dr. Shafaquat Ara, Principal of GPC Budgam, graced the occasion, underscoring the collaborative efforts with MSME and highlighting the significance of this initiative in skill development.

During the event, Mr. Umer, the nodal officer for the program, presented the detailed schedule and curriculum meticulously prepared by GPC - Budgam. This comprehensive framework aims to equip participants with hands-on skills essential for repairing household electronics.

Dr. Shafaquat Ara, in her address, emphasized the importance of practical learning and the pivotal role of the course in empowering individuals with expertise in household electronics repair. She highlighted the collaborative nature of the program with MSME, emphasizing the broader impact of partnerships on holistic skill development. Dr. Ara encouraged participants to embrace an entrepreneurial mindset, expressing that the acquired skills would not only contribute to personal growth but also address the increasing demand for expertise in electronic device repair.

The event was impeccably anchored by Er. Suehail, who, in his introduction, briefed Mr. Saheel about Government Polytechnic Budgam's latest infrastructure developments and the principal's unwavering commitment to advancing the institute with the latest teaching aids and infrastructure demand.

The launch of this 6-week course marks a significant step towards nurturing a skilled workforce, fostering entrepreneurship, and addressing the evolving needs of the electronic repair industry. Participants are poised to gain invaluable insights and hands-on experience, positioning them for success in the dynamic landscape of household electronics repair.

The session concluded with a delightful gathering over a cup of tea, creating a convivial atmosphere for participants and esteemed experts from Government Polytechnic College (GPC) Budgam and MSME. This informal setting provided a perfect platform for the exchange of ideas, clearing queries, and fostering meaningful interactions among attendees.
