Empowering Futures

GPC Budgam PTM - ND23

Budgam, 19 December 2023 : In a noteworthy initiative, Principal Dr. Shafaquat Ara of Government Polytechnic College Budgam personally orchestrated a highly engaging Parent-Teacher Meeting (PTM) on December 19, 2023. This event served as a platform for meaningful interaction between educators and parents, fostering a collaborative environment dedicated to the holistic development of students. During the PTM, one of the focal points of the meeting was the valuable feedback obtained from parents regarding their wards' academic progress and overall experiences. This direct engagement allowed the principal to gauge the effectiveness of the educational strategies employed and understand the needs of individual students. One significant highlight of the meeting was the emphasis on skill development initiatives led by the Skill Development Department. Dr. Shafaquat Ara elucidated various steps taken to instill valuable skills in students, with the overarching goal of nurturing a spirit of entrepreneurship among the youth. The principal underscored the importance of preparing students for the dynamic demands of the professional world. In addition, parents were apprised of the diverse scholarships offered by the Government of India to support students in their academic pursuits. Dr. Shafaquat outlined the opportunities available and encouraged parents to take advantage of these initiatives for the benefit of their children. Under the leadership of Mr. Ishiyaz Ahmad, the Incharge of Scholarships, a dedicated help desk was established to expedite the processing of issuing of bonafide certificates and other essential documents required for scholarship applications. This strategic move aimed to streamline administrative processes and ensure efficient support for students seeking financial assistance. Dr. Shafaquat reiterated the crucial role of collaboration between parents and teachers in creating an optimal learning environment. The principal stressed the need for open communication to address any concerns promptly, ensuring the overall well-being and development of the students. Emphasizing the pivotal role of parental involvement in a child's education, Dr. Shafaquat urged parents to actively participate in their child's academic journey and extracurricular activities. She said "The Parent-Teacher Meeting at Government Polytechnic College Budgam stands as a testament to the institution's commitment to nurturing well-rounded and empowered individuals, equipping them for success in both academic and professional spheres".
